About This Game

The Island of Eden is an unexplored legendary island...

A ship carrying men unknowingly sails towards the island.

However, the ship is wrecked and the protagonist finds himself on the Island of Eden.

As it turns out, the island is actually ruled by succubi! What will happen next for our protagonist?

Find out in this RPG brought to you in native English!

DirectX: Version 9.0

Additional Notes: 1280x768 or better Display. Lag may occur from loading menus or maps. Turn off other programs before running the game.

English,Simplified Chinese

How beautiful...

Saying the initial tutorial was lacking would still give it too much credit. I played it briefly with and without the patch and survival mode and honestly, like the other comments said, in comparison to previous games this one is super lacking. I barely played any of it because I just held no interest in it.. A very much decent survival mechanic alongside CG scene. Although this one could do better compared to TechnoBrake previous work, its still a good game to pass some time. Preferable to bought it on Sale though
